Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - *who are they?*	Describe the customer and their attributes here
I'm trying to	*List their outcome or "job" the care about - what are they trying to achieve?*	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?*	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – *how does it impact them emotionally?*	Describe the emotions the result from experiencing the problems or barriers

Problem Statements – Auto Ticket Classification using Flow Designer:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a student or teacher who has an IT issue	report the issue quickly by raising a support ticket	I have to pick the category and subcategory and wait for manual review	the categories are confusing and every ticket is classified manually	frustrated and unsure if my issue is being handled
PS-2	an IT helpdesk staff member	handle the daily support requests efficiently	reading, classifying and replying to each ticket takes too much time and causes mistakes	the process is manual and does not scale as requests increase	overwhelmed and worried about misclassified tickets
